

Tarrant County Horticulture Score Sheet

Entry Number: _____

1	2	3	4	5	
Plant(s) characteristics for grow time:					x4
Growth is far behind for the time given; minimal development.	Some growth, but significantly slower than expected.	Growth is mostly on track but slightly behind in some areas.	Growth aligns well with expected progress for the time given.	Growth is exactly as expected or ahead for the time given.	
Condition and health of plant(s):					x4
Plant is unhealthy; major wilting, discoloration, or damage.	Signs of stress; some discoloration, weak stems, or slow recovery.	Mostly healthy but has minor issues like slight wilting or discoloration.	Healthy with strong stems, good color, and minimal signs of stress.	Plant is thriving with vibrant color, strong structure, and no issues.	
Appropriate use of materials (pots, soil, etc.)					x3
Materials are inappropriate or severely limit plant growth.	Some materials are used correctly, but major issues exist.	Most materials are appropriate, but minor adjustments are needed.	Materials are well chosen and support healthy plant growth.	All materials are ideal for the plant and maximize growth potential.	
Creativity and Uniqueness					x4
No creativity; very basic or copied design with no unique elements.	Minimal creativity; slight variation but mostly unoriginal.	Some unique elements, but overall design is fairly common.	Creative approach with noticeable originality and thoughtfulness.	Highly creative and unique; stands out with original ideas.	
Description of project - How and when they got the plants, cost, media used, photos (start and midpoint), scientific name of plant (-5 points if missing)					x5
Missing most required elements; little to no project details provided.	Some information is included, but key details are missing or unclear.	Includes most required elements, but lacks depth or organization.	Well-organized with all key details; minor improvements needed.	Thorough, well-documented project with clear details and required photos.
